15,807 Jehovah's Witnesses Convene

"That will be a great day—the day of the war that will end all wars," So said Watchtower Society Vice-President F. W. Franz Sunday as he spoke to 15,807 Jehovah's Witnesses assembled at Miami Beach, Florida.

A part of the group in attendance was a delegation from Belle Glade headed by James Gwin Zea. The occasion was the four-day district convention of Jehovah's Witnesses held at the new Miami Beach Convention Hall.

In his public address on "Security During War of the Great Day of God the Almighty," Franz said, "Unselfish lovers of peace and brotherhood have looked forward to that day which will lead to a world of enduring peace among men of good will. The war of that great day is an absolute necessity. By this final war will be wiped out all human society as we know it."

Scriptural assurance was given that security will be provided for men of good will to survive that "war of the great day of God the Almighty." Franz is a Bible Scholar and translator of nine different languages. His appearance at this convention concludes a total of 12 Witnesses conventions held this summer in the United States and Canada. Franz appeared on the program at five of them.

The Belle Glade members returned home spiritually fortified and resolved to apply the many practical suggestions presented at the convention.

DAN AVERY, of Boynton Beach
Co-Chairman of RDB's Tax Study Committee

In presenting the recommendations of the Tax and Budget Study Committee of the Resources Development Board of Palm Beach County, an explanation of the origin and objectives of the Committee is in order.

During discussions of the Resources Development Board as to best methods of securing new sources of capital and new industries for Palm Beach County it became more and more apparent that while public utility, advertising and direct solicitation were important and obtained good results, there was another sphere of action to which more emphasis should be given. That sphere is the civil and political climate of the locality and State — the tax climate — the attitude of those already here toward new comers. These rank in importance with physical requirements such as geographical climate, location, transportation, water supply, markets, etc.

In Mark Twain's day, every one talked about the weather and nobody did anything about it. Today everyone talks about taxation and it was decided to

'Choose-It-Yourself'

Career Offered By Army

Young men looking for a profitable career in the job of their choice are guaranteed the vocational training asked for by the Army before enlistment, by the U. S. Army.

The "Choose-It-Yourself" system offers a flexible training and practical experience in any one of more than 50 career groups. After making his choice a young man is given aptitude and physical examinations to determine if he is qualified for the training he selects. Under this system he knows in advance the vocational training he will receive upon entering the Army without the slightest obligation to enlist.

Full details of the "Choose-It-Yourself" system and other opportunities offered by our modern Army can be obtained by contacting Sgt. Ron Rosser, U. S. Army recruiter, located at 319 S. Dixie, West Palm Beach, Fla.

How To Hold An Audience

"Nothing upsets a public speaker quite so much as having somebody get up and leave just when his eloquence is coming into full flower. One speaker has solved the problem quickly. By making his speech he makes this brief announcement:

"I have been requested to ask a gentleman in this audience to step out into the lobby to take a name which he claims he owes her \$2.40 for some laundry he did for her over a month ago. All farmers are urged to insist on his paying her, but she knows he is here and wants him to come out and settle with her within the next thirty minutes so that she can give him the money."

"I am glad to make this announcement, and I can assure the gentleman that if he leaves before I have finished I shall understand, and excuse him."

for is the will to do the right thing for Florida.

The Committee wholeheartedly supports Item 3, which calls for a State definition of "full cash value" assessment as called for in the State Constitution. This should be in accord with the value formulae currently in use in assessment engineering practice throughout the State, with a State Tax Authority to establish assistance and methods and improve their state-wide use.

With regard to home-taxed exemption, while the Committee has considered repeal or application of exemption to the section of \$5,000 of value with taxes to be paid upon the first \$5,000, it faces the reality that the provision is a part of the State Constitution and had best remain unchanged at its present figure without increase.

Items 5 and 6 speaks for themselves. One of the great patriot founders of our country always maintained that the best way to solve problems was to sit down on a log with the other fellow and talk it out. We are sure that our people will be able to sit upon our log. We are sure our promise that in the coming years there will always be a well-upholstered log in Palm Beach County waiting for you.
